CONTACT LENS FINANCIAL POLICY

Thank you for choosing us as your healthcare provider. We are committed to making healthcare less stressful and more effective by clarifying financial responsibilities in advance. The following is a statement of our Contact Lens Financial Policy which we require that you read, agree to, and sign prior to any contact lens services provided.

Contact lenses are medical devices which require ongoing evaluation to ensure safe and comfortable wear. Any contact lens professional services are in addition to your annual comprehensive examination. **A contact lens professional service fee of \$40 is charged to the patient on an annual basis to evaluate the patient's current contact lenses.** This contact lens professional service fee includes:

- Evaluation of the current fit, prescription, and additional eye health considerations that contact lens wear entails
- Evaluation of cornea, conjunctiva and eyelid health as related to contact lens wear
- Mapping of corneal surface and evaluation of changes compared to any baseline mapping

Patients requiring additional visits or contact lens professional services beyond this annual service fee will be quoted professional service fees before any additional testing is performed. These services may range from a Level 1 Basic Contact Lens check, to a Level 2 Intermediate Contact Lens check, or to a Refit or New Fit service depending on the complexity of the prescription, eye health, or patient history. Changes in prescription, lens material, and lens design changes are all factored into the consideration of this fee. This fee is at the discretion of the doctor, and any exceptions to this policy are at the discretion of our office.
